Г.2 Аннотация на английском языке

Abstract

Ivanova A.A. Development of the documentary procedure of system of quality management «An order of development of the main educational program» in conditions of SibSIU: final qualification work on the direction of preparation «Quality management» (27.03.02). – Novokuznetsk, 2017. – 91 pages, tables 10, illustrations 13, sources 25, appendices 3, the presentation – 14 slides.

In the course of accomplishment of final qualification work with the purpose of enhancement of a quality management system of SibSIU the order of development of the main educational programs at university is considered. On the basis of a process campaign the structural model of process of development of the main educational programs is offered, the flowchart and the responsibility assignment matrix on stages of process of development of the main educational programs is constructed. Documentary procedure of 8.3-1.0-2017 «Quality management system. An order of development of the main educational program».

As a result of development and subsequent implementation of documentary procedure 8.3-1.0-2017 «Quality management system. An order of development of the main educational program» in educational activities of SibSIU economic feasibility of the offered actions is proved, and also social efficiency from development and deployment of the specified documentary procedure is estimated.

Results of work can be used by the top management of SibSIU for the purpose of enhancement of a quality management system of university.
